

# MAFA FEED PREPARATION

## STORAGE WITH LIMITED AIR EXCHANGE

- **GOOD work environment**
  - less stress during harvest work
  - Swedish-made and safe
  - no corrosive additives
- **BETTER feed**
  - more efficient feed utilization
  - less dust
  - enclosed system
  - increased palatability
- **BEST overall economy**
  - cheapest preservation
  - independent of energy price and tax
- **MAFA's system also provides**
  - most reliable emptying through a steep, self-emptying cone and a very large bottom opening that eliminates the risk of freezing
  - generous work platform on the roof
  - site-adapted filling- / and emptying system
  - maximum volume utilization
  - accurate dosing through sortwise storage
