

MAFA UNIK Auger Box

AGRICULTURE

MAFA UNIK Auger box is available in 6 different models. Which model you choose depends on the type of material to be handled in the silo, the type of auger solution that is best for the situation and desired emptying capacity from the silo.

MAFA UNIK Auger box is equipped with a transparent manhole cover that allows you to easily and quickly check the feed quality. It is also equipped with an emptying hatch / test hatch that makes it possible to check the quality of the feed through withdrawals or to easily empty the silo if it is needed, for any reason. Designed for **MAFA UNIK** silos to make all the benefits of the UNIK concept possible.
