

**MAFA XB** is our biggest silo that can store up to 189 m<sup>3</sup>. A Swedish-made silo with a stabil construction. It is made of high-quality steel sheet coated with aluminium and zinc. A quality sheet with a longer durability compared to, for example, galvanized sheet. The silo has a smooth inside which means that it empties well.

We provide a 10-year material warranty against rusting on our factory-fitted MAFA Big. It is designed to handle loads of up to 750 kg/m<sup>3</sup> and can be adapted for higher volume weights.

### Advantages of MAFA XB:

- The surface coating reduces the heat radiation in the silo.
- Longer service life. We provide a 10-year material warranty against rusting.
- Filling via a long radius bend and large cyclone provides gentle insufflation and optimal venting.
- Minimal friction as the inside is smooth, equipped with a special bolt.
- A wide range of auger boxes for different capacity are available.

### Technical information

Model	Volume m <sup>3</sup>	Height m
<b>MAFA XB</b>		
50° cone, 30° roof, ø - 4,69m		
XB86	86,1	9,6
XB107	106,7	10,8
XB127	127,7	12,0
XB148	148,0	13,2
XB169	186,6	14,4
XB189	189,3	15,6

### ACCESSORIES

All MAFA silos can be equipped with various accessories to optimize the functions for the specific customer.
